**Professionals of  
working environments**

COMPANY

## **Mepak offers specialised furniture and services to create working environments.**

It's the result of five established professionals coming together with open minds and the experience gained in their respective fields: communication, interior design, construction, industrial shelving, office furniture and computer services.

## **Mepak offers only top of the range products and services, at competitive prices.**

We cater to large, small and medium-sized companies. But we want to be a reference point for all companies offering services and that need highly specialised furniture at short notice, with maximum reliability.

## **Mepak's added value is its multidisciplinary approach and vision.**

This means we can interpret technological innovations and methods in order to meet the specific needs of our customers.

## **Mepak pays great attention to protecting the environment.**

All of our services, from management controls to processes, are characterised by devices that improve energy consumption, such as inverter systems and LED lighting, and the materials used are 100% recyclable.

## **Mepak stands for attention to detail, seriousness and an entrepreneurial mindset.**

# DESIGN

## REGULATORY CONSULTANCY

### First evaluate, then design

Mepak technicians observe, measure, verify. Then, together with the clients they decide the project's priorities. We are specialists in sustainability and propose solutions with safe and recyclable materials, maximizing energy use. All in full compliance with regulations, thanks to our certified skills.

## PLANNING

### We think about the workplace

We start from the specific requirements. We employ technicians, consultants, experts in different fields. We provide a comprehensive feasibility and cost study. If it's an office, a house, or a facility: the goal will always be to create a safe, functional and eco-compatible space, oriented to the welfare of those who will live in it every day.

## **REVAMPING & RESTYLING**

### **Modernise, to change for the better**

Mepak restructures offices, civil and industrial buildings. We optimise space in response to new needs and using new technologies. We renew aesthetics, improve energy consumption and make productivity even more efficient.

## **REMODELLING**

### **When renovation means reorganisation**

Over time many spaces can have new uses. Mepak is able to redesign them starting with the furnishings and furniture already present. Reorganising functionality, optimising economic investment.

## **IT SERVICE**

### **Technology that improves work**

Mepak creates ad hoc infrastructures, stable and secure networks, advanced computer systems. Thanks to our integrated solutions, based on multidisciplinary expertise, we are able to interpret the potential of new technologies and put them at the service of each client and what they really need.

# FURNISH

## PLUMBING SUPPLIES

We design and create technologically advanced, safe and high-quality works. Furnishing is a science.

## OFFICE FURNISHING

Ergonomic office environments and functional operating spaces. Work environment is our job.

## SUPERVISION

Attention, professionalism, competence: relying on Mepak for supervision can make the difference

# PRODUCTS

## SOLAR PANELS

If you're going solar, go with the best solar panels in the Industry. SunPower Solar power systems make more energy from every drop of sunshine.

## INFORMATION TECHNOLOGY SUPPLIES

With many years' experience of supplying Schools, Colleges and Universities, we've got everything you need for Design &

Technology. Find top brand names and high quality own branded products in areas including CAD/CAM, 3D Printing, Sublimation, Engineering, Electronics, Materials, Machine Tools, Resource Packs, Arts & Crafts, Graphics and more.

## PLUMBING SUPPLIES

Plumbing Supplies are our bread and butter. We have everything from PVC fittings to solder to water heaters. Basically if you need to put it in a plumbing system, we have it.
